Bringing people together

With 33 Use Cases across Europe, the IoF2020 project brought together private and public stakeholders. Our final event was a great opportunity for our partners to meet again.

Virtual booths

Our Use Cases and partners were represented in 39 virtual booths, where they could meet the attendees and upload materials. The button "register interest" allowed visitors of the booths to leave a virtual business card.

Our sessions

Each day of our final event was focused on a different aspect of the project.

During the live sessions, attendees were able to interact directly with our speakers via Q&A, emoticon reactions and polls.
